Summary

Software Engineer/Developer, IT Support, Manual Tester, Technical Writer, and Data Protection Officer providing technical support, developing software programs, web sites, and giving information security/DPO consultancy. Working in Agile/Scrum methodology to achieve excellence in client satisfaction, productivity, and profitability. Having worked with international and multicultural teams, I am a proven dedicated team player and a service-orientated person with a high level of commitment and motivation towards high customer satisfaction. I have a firm mindset with a drive to find solutions to new problems. Strong analytical skills and detailed to project's requirements. Adaption well in groups and a willingness to understand the various roles played by fellow team members. I am highly skilled in troubleshooting and problem-solving, and am able to communicate effectively with both technical and non-technical stakeholders. Perform tests and find ways to eliminate bugs in the programs. Build interactive and dynamic websites and experience with remote projects thanks to hands-on experience in the full cycle of software & web development.
